### Get Trained on Scrum Foundations

One effective way to get people educated on Scrum is through an in-house (private-only) introductory training - **Scrum Foundations**. This **1-day training** exposes newcomers to the principles of Scrum, including the ideas, language, and elements of the framework – a perfect first step in one's Agile journey. This course covers the existing Scrum Foundations Learning Objectives that are aligned with the most recent Scrum Guide.

Through **Scrum Foundations**, students will fulfill the following Learning Objectives:

1. Scrum Theory
2. The Scrum Roles
3. Scrum Events
4. Scrum Artifacts
5. Artifact Transparency

Training sessions are interactive and include, role-playing, games, exercises and system modelling techniques.

Scrum Foundations is an affordable, scalable, and customizable offering taught by highly skilled instructors who've been validated by Scrum Alliance, the largest, most established and influential professional membership and certification organization in the Agile community.

### What Could follow Scrum Fundamentals Training?

Upon completion **1-Day Scrum Foundations** training people may consider one of the following certified education paths, to further advance their understanding of Scrum and Agility.

- **Certified Scrum Master (CSM)** – offered through Scrum Alliance and delivered by its guide-level professionals (CSTs, CECs, CTCs). CSM credential can be earned through training or coaching.
