OVERCOMING MISCONCEPTIONS

‣ Mature teams don't need a Scrum Master

‣ Teams can be "mature" in 3 years or less

‣ Scrum Master is an administrative role

‣ Scrum Masters are non-technical

‣ Scrum Master is a junior role

‣ Scrum Master is a role, not a job

‣ Scrum Mastering consists of: maintaining JIRA, running the daily standup, reporting in the scrum of scrums, and facilitating meetings
